

SKILLS IN CAREERS

We've looked at the skills that are needed to work in conservation. Match the skills with the professional who needs them for their role!

ACTIVITY 1

You will need:

- Printer

Print off the attached sheets. You should then match the skills that you think the professionals might need with the correct role.

ACTIVITY 2

Group discussion:

You don't need to work in conservation to do your bit to help the planet, think of a problem that affects our environment, and discuss what you can do to help!

Ideas:

- Animals losing habitats
- Plastic in the environment
- Climate change
- Drought
- Flooding

RESEARCHER

CONSERVATIONIST

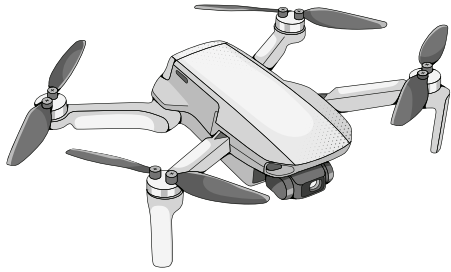

COMMUNICATOR

PROJECT MANAGER
